

DOUBLE INSULATED GENERAL HANDLING GLOVE

Featuring a soft, thermal lining and a durable HPT foam coating that extends across the knuckles, Argon provides excellent warmth, grip and protection even in damp environments.

FEATURES

- › Durable glove that remains flexible to temperatures as low as -50°C
- › Encapsulated air molecules provide an inherent cushioning effect
- › Secure grip in wet and dry environments
- › Enhanced protection to palm, fingers and knuckles
- › Excellent dexterity, flexibility and durability
- › Silicone free

SUITABLE FOR

Typical Industries

- Cold Storage
- Construction
- Logistics
- Manufacturing
- Oil and Gas
- Utilities

Applications

- Goods Handling
- Groundworks
- Labouring
- Outdoor Maintenance
- Public Works
- Yard Work

PRODUCT INFORMATION

MATERIALS	LINER:	Nylon
	COATING:	HPT Foam
COLOUR	Black / Black	
LENGTH (mm)	250-270 (size dependent-flat)	
CUFF STYLE	Elasticated, Knit Wrist	

ORDERING DETAILS

SIZE	CODE	PACKAGING
7/S	SKY081	1 pair per bag
8/M	SKY082	
9/L	SKY083	

RECOMMENDATIONS FOR USE

- It is the responsibility of the end user and not the manufacturer to determine glove suitability for the intended use.
- Not recommended for use with liquid chemicals. Do not use near moving machines if there is a risk of entanglement. The glove may lose its insulative properties when it becomes wet.
- Gloves should ideally be stored in cool, dry conditions in original packaging and away from direct sunlight.
- Both new and used gloves should be thoroughly inspected (especially after cleaning), before being worn to ensure no damage is present. Gloves should not be left in a contaminated condition if re-use is intended. In which case gloves should be cleaned as far as possible, provided no serious hazard exists, before removal from hand. Excess contamination should first be removed and the gloves may be decontaminated with mild detergent solution then rinsed with clean water and dried ideally with some air movement.
